Frame tents have no center poles and require less staking. The best tent for your event is determined by both the tent site and application.

### Tent Seating Guidelines

Buffet dinner	15-17 sq. ft. per person
Wedding	19-24 sq. ft. per person

## Keder Trac Frame Tents

Keder Trac Frame Tents are an engineered free-standing, aluminum framework which can be enclosed in your choice of **white** or **clear** fabric. The fabric top of your choice, slides through channels in the framework to create an unwrinkled, or baggy seal between the fabric and the frame. They are spacious and unobstructed by center poles and therefor can be an efficient use of interior space. They do not require 360 degree staking as constant tension is not required for stability, due to its internal skeleton. They are best suited for locations where staking is difficult due to other abutting obstructions or when ground surfaces are not conducive to staking.

## Century Tents

Century tents set the standard for quality and are a leader in the tenting industry. Century tents have large center poles and require full staking in 360 degrees around the tented area. Sailcloth tents provide an elegance like no other. With nautical flair, the sculpted peaks and eaves create an open, airy event space like nothing you've seen before. The translucency of the sail cloth fabric allows natural light to enhance your next daytime event and positively glows when lit for evening gatherings. The Tidewater top is built with a catenary shaped perimeter reinforcement and striking sun shaped eave and peak reinforcements that add to the unique feel of the tent. Finished with wood center and side poles these tents offer classic elegance.
